

Jyl Rubin, DVM, CVA, AAOT

Dr. Jyl has owned and operated a mobile and stationary, boutique integrative veterinary practice since 1999. She is an entrepreneur who possesses a strong business ethic. Her passions are practicing veterinary medicine and educating the world about preventive and holistic care for animals of all species. Her veterinary practice offers medical ozone therapy, acupuncture, blue light therapy and cold laser therapy, shock wave therapy, Digatherm®, PEMF therapy, hyperthermia, Chinese herbal and food therapy, Mistletoe therapy, and Prolozone.

Dr. Jyl has been practicing medical ozone therapy since 2015 and is a member of the American Academy of Ozone Therapy, American Holistic Veterinary Association, and the American Veterinary Medical Association. She officially started **Regeno3one Vet** the first veterinary owned medical ozone therapy company in 2023 dedicated to educating veterinarians, their staff and pet parents in medical ozone therapy and equipment.

She has a special approach to practicing veterinary medicine, which includes an anthroposophical approach by taking time to inform and educate clients about their pets' health conditions, and treatment options. This approach has consistently led to a higher overall quality of care, pet health, and pet and client happiness. She is continually searching for new holistic medical treatments to enhance and improve the overall quality of animals' lives. She is passionate about veterinary medicine and about educating and training other veterinarians and their staff about holistic medicine, and she is dedicated to educating and enhancing the relationship between people and animals. Dr. Jyl has been a veterinary news educator for over 25 years and has been featured on Animal Planet, Disney Radio, CBS, and Fox TV.

In 2005, Dr. Jyl founded Veterinary After Rescue Kare (VARK), a non-profit organization which provides unwanted animals of all species and breeds another chance at life by helping to fund their medical care through rescue organizations.

Dr. Jyl lives with her husband, four dogs, two cats, a cockatiel, seven desert tortoises, two alpacas, two goats and one 160 pound Sulcata tortoise. Her hobbies are gardening, scuba diving, and traveling.
