

# BRIEF CURRICULUM VITAE

## Alvin Holder, Ph.D

I am a proud Bajan. As an inorganic chemist, I was trained as an undergraduate student and a graduate student at The University of the West Indies (UWI), Mona Campus, Jamaica.

I am also an old Lodge Boy of the Lodge School (founded in 1745), Barbados, a former Lecturer in Chemistry at UWI, Cave Hill Campus, Barbados, a former Assistant Professor in Chemistry at the University of Southern Mississippi, and now I am a Professor in Chemistry at Old Dominion University, Norfolk, U.S.A.

My research revolves around inorganic chemistry, bioinorganic, transition metal chemistry, and inorganic reaction mechanisms, where our research group has published more than 85 peer-reviewed articles with our distinguished collaborators.

Director of ODU's Undergraduate Research Training Initiative for Student Enhancement (U-RISE) Program. Associate Editor, Results in Chemistry.

Alvin Holder, Ph.D., FRSC, CChem
